

## IMMANUEL LUTHERAN CHURCH STORY CITY, IOWA

**Location:** Story City, IA

**End Date:** December 10, 1993

**Project Size:** 2,900 SF

**Budget:** \$370,600

### Project Description:

The Immanuel Lutheran Church in Story City, Iowa desired an addition to their church which would solve problems of access as well as provide important gathering space.

The addition provided a new front to a 1960 education addition which the congregation felt was not sensitive to the original church character, while providing at grade entry and elevator access to both main floors of the building.

The addition also provided a narthex space on the main church level for gathering before and following services and classroom space on the lower level.
